Economy Means Spending Wisely

In the end the most expensive thing is often the most economical, the cheapest thing the most expensive.

Yes, results determine economy in coffee as in everything. And in judging the value of coffee the question to ask is not "how much per pound?" but "how many cups per pound?" Figured on this standard the most economical coffee for you to buy and use is

La Touraine
The Freshly Ground Coffee

Sold only in the La Touraine bag 35c a pound—all grocers

In no other coffee will you find anything approaching the amount of coffee strength—the real quality and value that are in every bag of La Touraine.

If you were to use coffee which costs less per pound you would sacrifice that golden brown color, that delightful fragrance, that rich flavor which La Touraine alone can give.

Results are what make La Touraine economical. Have you tried it?

COURT STILL TAKING TESTIMONY

Appeal From Probate Occupied Entire Session of Superior Court Yesterday—East Great Plain Physician on Stand When Court Adjourned Until This Morning.

The case of Mary E. Jones vs. E. A. Prentice, dnm., appeal from probate, occupied the entire session of the superior court on Wednesday and went over to 10 o'clock this (Thursday) morning when court adjourned at 4:30 in the afternoon.

When the court came in on Wednesday morning the case was taken up again, having been continued from Tuesday. Hon. Nelson Ayling, judge of probate, told of an action started in October, 1914, for the appointment of a conservator over Mrs. Mary H. White, whose will is now being contested by Mrs. Jones. The action was never carried through and no conservator had been appointed. Judge Ayling said that Mrs. White had never been in the probate court here.

A. D. Zabriskie, who was on the stand Tuesday when court went out, was recalled and continued his testimony. He told of living at the White

home, Mrs. White being his aunt. For eighteen months before he left the farm he did not consider that Mrs. White was either mentally or physically fit to transact business affairs.

Other witnesses called to the stand were Benjamin Franklin White, Alice in the afternoon, Walter Brown, Eva L. Barnes, Charles C. Zabriskie and Daniel L. Jones, M. D.

Dr. Jones who resides at East Great Plain and now is a retired physician said that his mother is a niece of Mrs. White. He said that Mrs. White had no children and that her nearest relatives are nephews and nieces. The witness told of meeting her once or twice on the street and said that she did not recognize him until he had told her his name. He was a near neighbor of the White family about twelve years ago. Dr. Jones was still being questioned when Judge Warner adjourned court until Thursday morning.

INSPECTORS TO VISIT NEARBY TOWNS.

Part of Nation-Wide Campaign to Eliminate Fire Hazards.

Inspectors of the Conservation association of Connecticut, who recently started a campaign to eliminate or reduce fire hazards in this state as a war measure, will extend their work this week to the following towns: Mystic, Naugatuck, Stonington, Pawcatuck, Groton and all of Windham county.

The inspectors recently made inspections in New Haven and Bridgeport. Their work has the endorsement of the Connecticut state council of defense and the council of national defense, and their methods are to make careful surveys of the places they visit to discover fire hazards and make recommendations that the conditions they find be changed so as to reduce the fire risk as much as possible.

There are between 30 and 35 men engaged in the survey. They are experts in their line, and letters have been sent by the state council to the mayors and fire and police chiefs of the two cities which it is hoped, will help to make the task of the inspectors easier.

Some of the things which the inspectors will be looking for are: (1) Isolated pieces of property that are of insignificant value and certain buildings that are classified as non-hazardous.

Certain classes of property will not be inspected, notably buildings that are regularly inspected by insurance companies, and buildings which are isolated pieces of property that are of insignificant value and certain buildings that are classified as non-hazardous.

The inspectors will visit the various pieces of property as representatives of the state council and the state government. They will be equipped with authorization cards issued by Governor Marcus H. Holcomb and countersigned by the state marshal and Richard M. Bissell of Hartford, chief of the conservation council. With these arrangements made for credentials, it is expected that the inspectors will be able to get into the places they are to inspect.
